HOT TOPICS IN MELANOMA & NON-MELANOMA

SKIN CANCER 2018

Florence, April 12-14, 2018

Convitto della Calza

Congress chairs:

LORENZO BORGOGNONI, MD & NICOLA PIMPINELLI, MD

Plastic Surgery & Dermatology, Azienda USL Toscana Centro, Florence, Italy

Dept. Surgery and Translational Medicine, University of Florence Medical School, Florence, Italy

MAIN TOPICS

- Epidemiology and epidemics of skin cancer: facts and bias
- Risk factors, prevention and early detection: is it the time for screening programs?
- Melanoma: from genetics to molecular diagnosis and classification to target therapy
- Melanoma: immunopathogenesis and immunostrategies
- Surgery and sentinel node biopsy in melanoma: evolution of a concept and clinical update
- Field cancerization in non-melanoma skin cancer (NMSC): a simple concept, a complex reality
- Treatment of NMSC: the clinical basis for evolving recommendations
- Cutaneous lymphomas: update in pathogenesis, diagnosis and treatment

Provider ECM n. 322
