# LA VITA PONE DOMANDE. NOI CERCHIAMO LE RISPOSTE.

L'innovazione è la nostra risposta alle continue sfide della salute. Lavoriamo ogni giorno per salvare le vite dei pazienti e per aiutare milioni di persone in tutto il mondo. Leader mondiali nelle biotecnologie: diagnostica in vitro, oncologia, trapiantologia, anemia, virologia, nefrologia e reumatologia sono le nostre aree di eccellenza. Focalizziamo il nostro impegno in ricerca e sviluppo sulla scoperta di nuovi farmaci e tecnologie diagnostiche in grado di combattere il cancro, l'AIDS, l'epatite, l'Alzheimer, l'artrite reumatoide ed il diabete. Grazie ai grandi progressi nella ricerca e alla sinergia tra diagnosi e terapia, siamo pionieri nello sviluppo di test diagnostici e farmaci personalizzati in base alle caratteristiche genetiche di gruppi di pazienti. Ci sono tante risposte quante sono le persone. Noi continuiamo a cercare soluzioni individuali.

*Caro Dottore,  
Quando mi ha detto che avevo un  
tumore, l'idea della chemioterapia  
mi terrorizzava.  
Ma aveva ragione: grazie al suo aiuto,  
è stato più facile di quanto pensassi.*

In Merck Serono lavoriamo quotidianamente per scoprire nuove soluzioni terapeutiche per quelle patologie che non hanno ancora una cura adeguata.

Con un investimento annuo in Ricerca e Sviluppo di circa un miliardo di Euro, un'esperienza consolidata nella chimica farmaceutica e nelle biotecnologie, ed una piattaforma tecnologica all'avanguardia, noi di Merck Serono vogliamo guidare il futuro dell'innovazione terapeutica e dare una risposta adeguata alle esigenze dei pazienti.

## SCIENTIFIC INFORMATION

### MAIN SCIENTIFIC PROGRAMME OUTLINE

The scientific programme covers three days (Thursday June 24, Friday June 25 and Saturday June 26, 2010) and consists of State-of-the-Art Lectures, Main Lectures, Debates and Face to Face sessions.

The “Debates” sessions will be about controversial topics in thoracic oncology; the “Face to Face” sessions instead will go on vexed questions and they will deal with two speakers and to add requests from some “shooters” put in charge in order to stimulate the audience for a lively discussion.

### WEBSITE

Virtual Meeting of the Conference will be available after the end of the Meeting on AIOT official website [www.oncologiatoracica.it](http://www.oncologiatoracica.it).

### ITALIAN MINISTRY OF HEALTH - CME CREDITS AND ESMO MORA POINTS

The accreditation has been asked for entirely meeting. To obtain Italian credits the delegates must attend in the 100% percentage of the time sessions. An electronic device will be arrange.

At the moment of registration each participant receives the evaluation forms and learning questionnaire of the scientific sessions. These forms and questionnaire must be filled in and return to the “CME credits” desk. Electronic tags will be used to record the CME credits. The electronic readers are placed at the beginning of the stairs to access in “Petrassi” room. It is sufficient to pass through the electronic device to have the credits recorded.

To obtain credits, Italian participants must be:

- record both the entrance and the exit of each Meeting day
- return the electronic tag to the Organizing Secretariat at the end of the Conference
- return the evaluation forms and questionnaire duly filled into the “CME credits” desk. The anagraphical data must compulsorily be indicated since required by the Italian Ministry of Health

**Please note that should you loose or fail the tag, you will be charged € 10,00 by the Organizing Secretariat.**

A close-up, low-angle shot of an hourglass. The top bulb is filled with a thick, golden-brown sand. The narrow neck is the focal point, with a small metal cap at the bottom. The bottom bulb is empty, and a stream of sand is captured mid-fall, creating a blurred, golden trail. The background is a soft, warm, golden light, creating a sense of time and value.

In **oncologia** la storia di AstraZeneca è lunga quanto quella dell'oncologia moderna. Già all'inizio degli anni '60 AstraZeneca (allora ICI) scopriva e sviluppava il primo farmaco in grado di contrastare la crescita tumorale. Da allora abbiamo percorso molta strada, sviluppando molecole che ci hanno permesso di diventare leader nel campo della terapia ormonale del tumore mammario e prostatico e una conoscenza che fa di noi un'azienda all'avanguardia nel settore, con farmaci sempre più selettivi, quindi efficaci e tollerabili. Grazie alla nostra conoscenza ed esperienza nel campo dei recettori cellulari e delle formulazioni orali, abbiamo sviluppato il primo farmaco di una nuova classe di antitumorali ad azione farmacologica fortemente innovativa per la terapia del tumore polmonare. La nostra storia continuerà con quella dell'oncologia. Grazie alla condivisione delle conoscenze e alla passione di tutte le nostre persone, la percorreremo accanto ai medici e agli oncologi di tutto il mondo con **obiettivi sempre più ambiziosi**.

Dalle idee creiamo soluzioni.
