

Fourth International Symposium

The Consensus Conference

**PRIMARY
SYSTEMIC TREATMENT
IN THE MANAGEMENT OF
OPERABLE BREAST CANCER**

Toward the rapid assessment of therapy efficacy

26-28 September 2010

CREMONA (Italy)

Sunday, 26th September 2010

Afternoon Session:

14:00 Registration

14:30 Official Welcome from Breast Unit Leaders

ALBERTO BOTTINI, CATALIOTTI LUIGI,
PRIVATO FENAROLI, ROBERT MANSEL

15:00 Up-date from Frankfurt-Biedenkopf Round-Table

MANFRED KAUFMANN, GUNTER VON MINCKWITZ

16:00 Introductory Lecture

LAURA VAN'T VEER

17:00 Opening Ceremony and Welcome Party

Monday, 27th September 2010

Morning Session: The round-trip: bench-bedside-bench

GIOVANNA DAMIA, DEREK KENNEDY, PIER GIORGIO PETRONINI

9:30

Translation strategies to turn in vitro information to clinical benefits

MARIAGRAZIA DAIDONE

10:00

Pharmacogenomics to guide successful development of old and new therapies LAJOS PUSZTAI

10:30

Biomarkers predicting clinical benefits: Fact or Fiction?

GIAMPAOLO TORTORA

11:00

Breast Cancer Stem cells: role and clinical potentiality

GABRIELLA DONTU

11:30 – 12:00

**Discussion: Outlines for the Statement on Primary
Chemotherapy**

GIOVANNA DAMIA, DEREK KENNEDY, PIER GIORGIO PETRONINI

12:00 – 13:30

Lunch Session: Step to the Future, the EYO

- **ESMO Young Oncologists Classroom: Perspective of Primary Chemotherapy in Breast Cancer**
Interactive Poster and Abstract Discussion
SERENA DI COSIMO, MARINA GARASSINO

Afternoon Session: Treatment interaction with tumour biology, Lost in Translation

MASSIMO AGLIETTA, FRANCESCO BERTOLINI, STEVE FOX

14:00

Metabolic and molecular response for treatment responsiveness/resistance

DANIELE GENERALI

14:30

Mechanism of resistance to target-therapy based-combinations

PIERFRANCO CONTE

15:00

Knowing angiogenesis and microenvironment: clinical advantages

ADRIAN L HARRIS

15:30

The triple-negative subtype: new ideas for the poorest-prognosis breast cancer

GIUSEPPE CURIGLIANO

16:00

The HER2 world: the better agents selection for the better outcome

SYLVIE MENARD

16:30 – 17:00

Discussion: Outlines for the Statement on Primary Chemotherapy

MASSIMO AGLIETTA, FRANCESCO BERTOLINI, STEVE FOX

Tuesday, 28th September 2010

Morning Session: State of the art and perspectives

LUCIO OLIVETTI, CARLO TONDINI, DANIEL VAL

9:00

The surgeon's role in the neo-adjuvant treatment with target-therapies

JAMES DIXON

○ Trouble-shooting for pathologist

9:20

The pCR open-question in primary therapy

ANNA SAPINO

9:40

Surrogate markers for target-therapy based-treatment activity and efficacy

LUCA GIANNI

10:00

Clinical and pathological post-therapy assessment and prognosis

STEPHEN B FOX

- New radiological perspectives in neo-adjuvant setting
10:20
DCI-MRI and BOLD-MRI for tumour biology changes under treatment
ANDREW MAKRIS
- The new combinations for the breast cancer oncologist
10:40
PET-CT role in primary therapy
FRANCESCO FERROZZI
- The new combinations for the breast cancer oncologist
11:00
Chemotherapy and biological drugs
JOSE' BASELGA
- The new combinations for the breast cancer oncologist
11:20
Endocrine-therapy and new biologicals
MITCH DOWSETT

11:40 – 12:10

°Discussion: Outlines for the Statement on Primary Chemotherapy
LUCIO OLIVETTI, CARLO TONDINI, DANIEL VAL

12:10 – 13:40

Lunch Session: EYO - interactive discussion with biotechnology industry involved in oncology drug discovery
SERENA DI COSIMO, MARINA GARASSINO

Afternoon Session: New approaches for clinical studies
PAOLO BRUZZI, LAJOS PUSZTAI, MARCO VENTURINI

- 14:00
New “*Omic*s” information for clinical trial utility in the primary setting
SILVIA MARSONI
- 14:30
Biometrics and bioinformatics: design a clinical trial with old and new agents
VALTER TORRI
- 15:00
Gene-profile assay and application: the predictive role in primary therapy
CHRISTOS SOTIRIOU

15:30

Tissue and soluble biomarkers and their applications: ready to use!?

ROBERT MILLER

16:00

Early Response as a guide for further treatment: clinical, radiological, biological

MICHAEL UNTCH

16:30

Waypoints and endpoints in primary therapy

ALFREDO BERRUTI

17:00 – 17:30

Discussion: Outlines for the Statement on Primary Chemotherapy

PAOLO BRUZZI, LAJOS PUSZTAI, MARCO VENTURINI
