PRELIMINARY PROGRAM

FROM HISTOLOGY
TO MOLECULAR BIOLOGY:
CLINICAL AND THERAPEUTIC
IMPLICATIONS IN NON-SMALL
CELL LUNG CANCER

Trento
March 19th 2010

**SALA CONVEGNI
FONDAZIONE CARITRO**

10.30

Introduction

E. Galligioni

First line chemotherapy: Highlights on new drugs

CHAIRMAN: A. Paccagnella

10.45

Pemetrexed

S. Novello

11.05

Bevacizumab

M. Di Maio

11.25

Cetuximab

O. Caffo

11.45

Gefinitib

A. Ceribelli

12.10

LECTURE: New paradigms for chemotherapy of NSCLC

L. Paz Ares

12.40

Discussion

13.00

Lunch

14.00

ROUND TABLE: Treatment selection and available biological data

DRIVERS: G. Rosti, F. Facciolo, S. Gasparini

CASE STUDIES PRESENTATION: M.L. Manes, B. Mercuriali, M. Silvestri

PANEL: F. Calabrò, D. Sella, M.L. Storto

Main issues on pathological diagnosis

CHAIRMAN: C. Pinto

15.40

Histological characterization in the era of personalized medicine

M. Barbareschi

16.00

Molecular diagnosis: predictive tool for target therapy

A. Marchetti

16.20

Discussion

The real life: implications for the every day practice

CHAIRMAN: E. Galligioni

16.40

Global strategies for the management of Non-Small Cell Lung Cancer

F. De Marinis

17.00

The oncologist and the cost rising in the light of new clinical evidences

F. Grossi

17.20

Conclusions

E. Galligioni

17.40

CME Test
